Special thanks to Tom Kimball, Ph.D., for a brilliant job of copy editing (<http://www.knowbiz.biz/support/contact.html>). We have fixed typographical errors and corrected a mistake about the time at which some of the most telling photographs in Ch. 8 were taken, of the most telling, which was the evening of the 13th rather than the morning of the 14th. The enthusiastic response to the 1st edition has led the editors to add new chapters about some rather bizarre aspects of "the Sandy Hook experience", authored by Tony Mead.

## PREFACE

# Some Conspiracy Theories Are True

*by Mike Palecek*

"What can government do about conspiracy theories? Among the things it can do, what should it do? We can readily imagine a series of possible responses. (1) Government might ban conspiracy theorizing. (2) Government might impose some kind of tax, financial or otherwise, on those who disseminate such theories. (3) Government might itself engage in counter-speech, marshaling arguments to discredit conspiracy theories. (4) Government might formally hire credible private parties to engage in counter-speech. (5) Government might engage in informal communication with such parties, encouraging them to help. Each instrument has a distinctive set of potential effects, or costs and benefits, and each will have a place under imaginable conditions. However, our main policy idea is that government should engage in cognitive infiltration of the groups that produce conspiracy theories, which involves a mix of (3), (4) and (5).

"... One line of thinking denies that conspiracy theories matter. There are several possible reasons to think so. First, conspiracy theories may be held by only a tiny fraction of the population. Perhaps only a handful of kooks believe that U.S. government officials had any kind of role in the events of 9/11.

"... Government agents (and their allies) might enter chat rooms, online social networks, or even real-space groups and attempt to undermine percolating conspiracy theories by raising doubts about their factual premises, causal logic or implications for political action."

— "Conspiracy Theories," Cass R. Sunstein, Adrian Vermeule,  
Jan. 15, 2008

*Mike Palecek*

"More than a year and a half after Adam Lanza brutally murdered 26 women and children at the Sandy Hook Elementary School in Newtown, parents and relatives of the victims still relive the terror of that fateful day along with the daily anguish and torment they suffer over the loss of their loved ones. Worse, they have to suffer the onslaught of delusional conspiracy theorists, commonly called hoaxers, who claim Sandy Hook was a "false flag" event concocted by the government as a pretext to gun confiscation."

— Lenny Pozner, *Hartford Courant*, July 25, 2014

Well, then, let us begin at the beginning.

This is where it starts and ends.

Right here.

If Lenny Pozner is right, then I am wrong.

If his son Noah was murdered by Adam Lanza at Sandy Hook School on Dec. 14, 2012, then this book is a bust, worse than that, much worse.

But I do not think that is the case.

We are saying that Sandy Hook did not happen as we have been told.

We also think the Boston Marathon bombing did not happen as we have been told.

We think these events are part of a pattern that stretches at least as far back as the murder of John F. Kennedy, likely farther.

These "false flag" events are part of a conspiracy, a vast conspiracy.

You have been taught to laugh now.

But there is nothing funny here.

Some of those who have spoken the truth are no longer here.

Their chairs at the Thanksgiving adult big table are empty.

Their relatives have sent them to Siberia with a roll of their eyes.

So, let us begin. ...

... Okay, here we go, scooch up to the samovar,

maybe leave your hat and boots on, fill your peasant hands with a warm drink, and listen for the sound of hoofbeats on the ice.

The New American Dream means never having to say some question or idea is not valid.

We are allowed to ask any questions that we have, there are no wrong questions. There is no hidden black military budget, there are no UFO files Americans cannot see, no JFK documents that will not be opened during our lifetimes, no destroyed RFK murder photos by the L.A. police, no evidence from Ground Zero taken away before we can even look at it — we are not the U.S.S.R. of the 1960s — this is supposed to be America. That is our dream, to become America, The New America, the real hope of the world.

Mike Palecek

### THE WIDESPREAD DECEPTION

The Heritage Foundation published on April 25, 2012, "50 Terror Attacks Foiled Since 9/11." [1]

#### Key Points

-The death of Osama bin Laden marked an important victory in the long war on terrorism. One year later, however, Congress and the Administration must remember that the war is not won. The nation and its leaders must be mindful of the requirements of the continued fight against terrorism at home and abroad.

-Since 9/11, at least 50 *publically* known attempted terrorist attacks against the U.S. have been foiled — of these, at least 42 could be categorized as homegrown plots.

-With the global operating environment for terrorist networks becoming increasingly hostile, homegrown terrorism has become more appealing to al-Qaeda and other terrorist networks.

-The U.S. must not only continue its reliance on existing counterterrorism and intelligence tools, such as the PATRIOT Act, but also enhance cooperation among federal, state, and local authorities, as well as build mutual trust and partnerships with Muslim communities throughout the U.S.

... *This, from the Heritage Foundation, is part of the widespread deception, burning and out of control, like west coast wildfires, threatening to engulf the countryside.*

John Avlon, writing in *The Daily Beast*, tell us "there have been at least 45 jihadist terror attacks plotted against Americans since 9/11 — each of them thwarted by a combination of intelligence work, policing and citizen participation." [1A]

The young, hip editor at *Time* magazine talks about the glory of the new One World Trade Center, showing our strength, resurgence.

The Sandy Hook file is finally released, showing incredible fictional detail and yet no names of the deceased.

The "backstory" on the Tsarnaevs, the patsies in the Boston Marathon bombing event, runs in a hundred big city newspapers, hits the street in the morning edition, and finally, at long last, the writers in Langley can get some needed sleep.

With this series we cut a firebreak in this calculated confusing conflagration.

It stops here.

As we will show: the "Boston Bombing," the Sandy Hook School Shooting, both fake.

We are here to stop it.

*Mike Palecek*

*"To be charged with questioning these foundations is far more serious than being labeled a disgruntled conspiracy nut or anti-government traitor, or even being sidelined or marginalized within an academic, government service, or literary career."*

*"To question the official 9/11 story is simply and fundamentally revolutionary. In this way, of course, questioning the official story is also simply and fundamentally American."*

"Communist" used to be a pretty sharp dagger to be able to pull out and do some damage, and then it was "liberal."

Now conspiracy theorist or tin-foil hat carries the load, the punch the old-timers do not pack anymore.

Some say that "conspiracy theorists" need or desire or get satisfaction from the psychological warm, fuzzy of being in the know, fighting the power.

That's true.

That does feel good. *Mmmm-hmmm.*

Like a "sow-na."

Why would one not want to know what's going on.

Then why do some people "know" and some do not?

Coincidence? Serendipity?

I don't know.

Life experience, curiosity, you talked to this person, read this book, saw this video, maybe something like that. Desire to know what's going on.

I do not think it's a desire to know or think that people do bad things.

There are also many frustrations that go along with the warm, fuzzy of "being in the know."

There are so many people who do not know, who refuse to know and there is the frustration of living with that.

There is also the knowing that people are dying, living in poverty, being cheated out of decent lives, for whole generations, and that it is not just a matter of the curvature of the earth or coincidence, or "we tried, we did the best we could, but, well, sorry."

It's a matter of planning for certain people to die and live in poverty and some to live in unbelievable wealth.

The "knowing" goes something like this.

Knowing that the buildings on 9/11 were not brought down by fire and gravity.

Knowing that the evidence shows that nobody died at Sandy Hook, as wild as that sounds. The grieving parents are actors, the school was not a functioning school, only a stage. Gene Rosen. Wayne Carver are insanely ridiculous. Of course there's more, following, here, in this book in your hands.

Knowing about Oklahoma City that more bombs were found inside the building, knowing about the death of Officer Terry Yeakey.

*Preface*

Knowing about Boston would mean knowing about the photographic evidence of the backpacks of the "security" details, the photographic evidence showing that the injuries were faked.

And then, join the club.

Whether you want to or not, now you can see that the Bushes, Obama, Clinton, Biden, etc. etc., and Cooper, Maddow, Morgan, Williams, Lauer, etc., etc. are either CIA operatives or paid off by the CIA or whatever.

And that is the real world.

Take off your tin-foil hat. You don't need it anymore. You are living in reality.

*There Is Only You*

Once we thought we had hope.

We had Michael Moore.

We had pissed-off Republicans and that's always a good thing. We had Jon Stewart and Stephen Colbert from the home team fighting for the loose puck against the boards.

We had National Public Radio, *The Progressive*, *The Nation*, CommonDreams.org, Colbert at the Washington Reporters dinner, McNeil & Lehrer, Woodward & Bernstein, Peter Matthiessen ... the list is long and goes on and on.

But really it does not. It stops as it starts.

There is no list.

Not of big-time, powerful progressives telling the truth.

There is only Bill Hicks.

And you.

But he is dead.

And there was Jim Garrison.

And George Carlin did what he could.

We have a litany of heroes and we are thankful for that.

And there are these writers in this book and a hundred more like them around the world. But will that be enough? The world is big and it is so difficult to reach so many people when you cannot get on TV, in the big daily newspapers, on the popular liberal websites (Daily Kos: You are banned for saying 9/11).

For lack of just a few honest persons we have lived in Disneyland since at least 1963.

And now we have a new, advanced nano-termite, the kind that has been bred lately, they come up with terms like "cognitive infiltration."

Cass Sunstein, an academic and Washington, D.C. and elsewhere bigshot says that conspiracy theorists are dangerous, take up valuable time I guess, and need to be stopped by playing mind games, black ops in Bemidji. They do it elsewhere, have for decades. Why not here?

*Preface*

presents a problem for them. As they lose viewers and the alternative media gains acceptance, they will, no doubt, take measures.

*And a comment on the Citizens From Legitimate Government website:*

These false-flag operations are concrete evidence of deeply malicious and dangerous private networks operating from within the depths of the national security state, which serves as the 'muscle' for the corporate elite.

These attacks were all designed to terrorize the community and to pave the way for new authoritarian legislation. All bore characteristics of a sophisticated, well-executed operation carried out with military precision by professionals likely working for a covert section of the military/intelligence community or a private contractor (Craft International, Blackwater, Booz Allen Hamilton). All were attributed to men whose level of professionalism is far below what was required.

Many of these men had ties to the U.S. Military and U.S. Intelligence. Most ended up dead, while the exceptions sat meekly in the interrogation room, under the control of the intelligence agencies, and, then, the courtroom, as a show trial (the verdict already decided by the media) ensured they would never be heard from again.

There are virtually always additional suspects (professionals) who are initially reported and seen by eyewitnesses but who disappear from all official reports. There is little evidence connecting the accused to the crime, and they are usually simply a decoy who is maneuvered into the wrong place at the wrong time.

There is nearly always a training exercise running shortly before, during, or scheduled for after the "attack." It always eerily mirrors what reportedly happened. Using a training exercise to provide "cover" for preparations or execution of a covert operation is an age-old technique of military deception.

The information flow is often heavily manipulated for the purpose of ensuring that damaging information is suppressed and to maximize the propaganda. The latter is accomplished through the airing of fake interviews, with actors posing as witnesses, authorities and grievors. It also often involves airing fake video footage or photographs of the event. This requires the full collaboration of the mainstream media and those few corporations that own it.

What all of this represents is a full-scale psychological warfare campaign against the international public. It is designed to sow fear throughout the community, thus resulting in submission to authority. It is a "strategy of tension" that has been in operation for quite some time now. [20]

We are all patsies now.

Though we owe apologies to Lee Harvey Oswald, Osama bin Laden, James Earl Ray, Mark David Chapman, John Hinkley, Jr., Sirhan Bishara Sirhan, those guys with three names, and some with two as well: Timothy McVeigh, Adam Lanza, James Holmes.

*Mike Palocet*

Who else? There are more.

They came for them and we watched TV, we cheered the fighters flyover the ball game, we ate strawberry swirl ice cream and watched American Idol, went back for more, we worked religiously and we went to church with reckless abandon.

And some day, a Tuesday morning or Wednesday afternoon, nondescript, they will come for us.

False flags make sense.

They make all things possible.

Three dead teenagers means it makes sense for Israel to invade Gaza. A missing plane and then that plane crashes in the Ukraine with dead bodies and it makes sense to somebody to do something. Gives them license.

"A" follows B, C.

And we all say, oh, yeah, yep, okay.

That's why "they" do it.

*"... That's not the way the world really works anymore. We're an empire now, and when we act, we create our own reality. And while you're studying that reality -- judiciously, as you will -- we'll act again, creating other new realities, which you can study too, and that's how things will sort out. We're history's actors ... and you, all of you, will be left to just study what we do." -- Karl Rove*

Children "die" at Sandy Hook, people "die" at the Boston Marathon, in a theater in Aurora, Colorado, a federal building in Oklahoma City, in some giant buildings in New York City.

And then, yes, it makes sense. Now we can do that. Before we couldn't, but now we can.

Let's go.

Let's roll.

Let's boogie.

Why can't people just live.

Why can't we all just be good to each other, take what we need and give some to somebody else.

Why do some people have to be Karl Rove, Dick Cheney, George Bush, Bill Clinton, Hillary Clinton, Barack Obama.

Why?

That's a hard question, the why.

Or not.

There is a photo in an article on Veterans Today that is interesting. (July 25, 2014)

It shows the photographer from *The Newtown Bee* newspaper taking the

*Preface*

photo of the children being evacuated from the Sandy Hook school. That photo ran on the front page of *The New York Times* and the *Los Angeles Times*, and elsewhere.

It's a photo of her taking the photo in a casual setting, setting up the photo, setting it up to be iconic.

This shows that the photo was a setup.

It shows that Sandy Hook was a setup.

It is the thread that starts the shredding, that unravels the United States, the bad part, the criminal, the treasonous. Sure, there is still a big, good part.

This article, set of articles, by Jim Fetzer and others on Sandy Hook is bigger than the Watergate reporting by Woodward & Bernstein, and more truthful.

It shows that President Barack Obama, that pillar of anti-terror and hunting down the bad guys, is a terrorist.

He surely knows about all of this, as does his Head of the Department of Justice, Eric Holder.

This means that the Department of Homeland Security is a terrorist organization.

*Terror At The Marathon*

*The Boston Globe* of course ran a big special section in Metro: "Globe coverage of the April 15, 2013 bombings at the Boston Marathon and the events that followed."

It also featured an iconic photo of an older runner on the ground and three police officers standing over him after coming to his aid. That photo also was featured on the cover of *Sports Illustrated*.

Great shot, probably award-winning. Would have been better with some cherry-red blood, though. It's got green and some red, but blood would really pop.

There was supposed to be blood, I think.

There is a video that shows someone running just in front of him tossing something back to that old man just as the bomb goes off, a packet of some sort. But, alas, he fumbles with it and does not get the nice cherry red on his legs as the *Globe* photographer, ready and steady, rushes up, and we are left with what might have been.

But then again, why wouldn't the old man have just carried the packet with him rather than have it tossed? But it remains that something is tossed to him as the bomb goes off, he tries to catch it, does not, falls down, gets on the cover of *Sports Illustrated*.

His back is to the camera, but it's still *Sports Illustrated*, man.

The old man is only one of so many Boston "victims," who like World Cup soccer players, are flopping all around the sidewalk with wide mouths and looking for who is noticing out the corner of their eyes.

That *Globe* special section has it all. We are not left to wonder. It's in

*Preface*

recommend flak jackets (preferably faulty ones made by a company connected to Cheney), an escort of fast-retreating local journalists, and a medical team of first-year health administration students on standby. I'm certain that as soon as these would-be politicians started asking relatives if the Westside Middle School massacre was a hoax orchestrated by gun control fanatics, the relatives would be exercising their perceived Second Amendment rights. Here are two articles obviously planted by George Soros and Islamic Jihadists to cunningly disarm."

*(www.arktimes.com/ArkansasBlog/archives/2014/06/16/sandy-hook-massacre-a-hoax-two-arkansas-candidates-seem-to-think-so)*

*American History 101*

Lee Harvey Oswald did not kill John F. Kennedy

Sirhan Sirhan did not kill Robert F. Kennedy

James Earl Ray did not kill Martin Luther King, Jr.

Timothy McVeigh did not blow up the Oklahoma City Murrah Federal Building on his own

Osama bin Laden was not buried at sea, did not plan, take part in the attacks of Sept. 11, 2001

The U.S. Government burned children alive on purpose at Waco

Senator Paul Wellstone was assassinated in a plane crash in the Northwoods forest near Eveleth, MN because he opposed the coming war on Iraq

Adam Lanza did not kill anyone, if he even existed

Nobody died at Sandy Hook.

Nobody died at Boston.

There are many lies that make up official United States History 101.

Not all are exactly false flags, but the lies, the lies.

One of big, interesting questions for me is how do they do this? Internally and also intellectually ... it's fascinating ... a mystery ... also the mystery of the liberal pundits - big names who either won't say anything or attack the conspiracy theorists.

Kevin Barrett told me: *Well, they are psychopaths, that's how.*

But that doesn't do it for me. There is more than that.

"They are all just crazy."

*Mike Palecek*

I would say they are probably not all crazy, probably none of them are crazy. That's more in the direction of what I really feel, believe.

I think it is more in line with what someone once said about the banality of evil.

Of course, it's in all of us, but still.

I think what happens, perhaps, is that people do evil while believing they are doing good.

Or maybe it's for the money.

Maybe the excitement.

Something to do. I know from experience that Tuesday afternoons almost never end.

The power.

Hmmm.

It's all so very interesting and so very frustrating, seemingly impossible to get to, the inner workings of how these things happen, why, by whom, how and when and where are they planned, carried out, covered up.

You have to agree that it's fascinating.

Jon Rappoport was on James Tracy's radio show, and he said this, in talking about how "they" do what they do, how they create this world where we have these people on the Arkansas blog and the people next to us in church and at the stoplight not knowing, like *The Truman Show*, what reality really is.

Rappoport is talking about the mindset of these actual planners, maybe Karl Rove, maybe Rahm Emanuel, maybe some smart guys in a nice office with lots of windows in Utah, who all go to the same church and play on the same summer softball team in Bluffdale.

"... how am I going to frame reality today so that the population receives it and accepts it so that there really is no difference between what they perceive and the reality that I am inventing for them, the painter. It's a marriage. It isn't just the painting I am painting, it's also the embrace of the painting by that individual."

*(Jon Rappoport on James Tracy radio show, Checkin' It Out - <http://memoryholeblog.com/2014/07/13/journalism-education-and-the-matrix/>)*

*Are Sandy Hook Skeptics Delusional with "Twisted Minds"?*

## **Are Sandy Hook Skeptics Delusional with "Twisted Minds"?**

*by Jim Fetzer Ph.D. & Kelley Watt*

*"Noah Pozner's death certificate is a fake. But if Sandy Hook had been real, there would have been no reason to fake it. QED" - Jim Fetzer*

Someone calling himself "Lenny Pozner", who purports to be the father of the alleged Sandy Hook victim, Noah Pozner, has launched a vicious attack upon those who are skeptical of the "official story" of the Sandy Hook event.

A response has been published by *AbleChild*, observing that the problem has arisen because the "official report" from Connecticut authorities, especially the *Sandy Hook Final Report* authored by Danbury State's Attorney Stephen Sedensky, was a shoddy piece of work that raised more questions than it answers. This exchange deserves serious consideration, not least of all because Noah Pozner appears to be the only alleged "child victim" for whom their birth and death certificates have been released by their "parents". There is no stronger case.

That makes the Noah Pozner case of special significance as an acid test: *if Noah really died, that defeats the critics' claim that "no children died at Sandy Hook"; but if Noah did not die, especially if Lenny's "proof of death" turns out to be fake, then this effort to defeat the critics will have backfired badly. And it is very straightforward to demonstrate that AbleChild is right about the "official report".*

### **The "official report" on Sandy Hook**

At this point in time, it is relatively trivial to demonstrate that the "official report" on Sandy Hook that was authored by Danbury State's Attorney

*Jim Fetzer Ph.D. & Kelley Watt*

Stephen Sedensky does not establish a causal nexus between the shooter, his victims and the weapons he is alleged to have used. It suffers from the shortcomings of concluding that there were no fingerprints on the .22 rifle that was allegedly used to shoot his mother and, even more surprisingly, that of the large number of shots that were fired from the 5.56 calibre Bushmaster (close to 150 rounds), none of the bullet fragments could be matched to the weapon:

"No positive identification could be made to any of the bullet evidence submissions noted ... in 5.56 mm caliber. The physical condition of the bullet jacket surfaces were severely damaged and corroded. They all lacked individual striated marks of sufficient agreement for the identification process. The test fires also exhibited a lack of individual striated marks on the bullet surface for comparison purposes. This condition can be caused by fouling in the barrel of the rifle and the ammunition used. The Bushmaster rifle cannot be eliminated as having fired the 5.56 caliber bullet evidence examined," quoting from the 8/19/11 Forensic Science Laboratory report.

Under these circumstances, it would have been impossible for the alleged shooter, Adam Lanza, to have been convicted in a properly conducted court of law for his alleged offense, because *no causal nexus has been established between the purported shooter, his weapons and the 20 children and seven adults he is supposed to have killed*, which one might have naively supposed was the point of the investigation. But if that was its goal, then its objective was not achieved. If there has ever been such an abysmal failure in the annals of forensic investigation, I would love to hear about it. This is absurd!

### **The staged photos for the fake event**

We have published several studies of the celebrated Shannon Hicks' "iconic photograph", which seems to show children being evacuated from Sandy Hook. But now we have additional proof it was staged, where the children were rearranged into a different sequence to create the "best shot" to convey the false impression that a real emergency was taking place. Here is addition proof that this was a hoax:

And a new video study offers further proof that this was only a drill, where the author is very patient and circumspect in arriving at the conclusion that it was a hoax and no children died. But, of course, if he is correct—and the evidence is over-whelmingly on his side—then Lenny Pozner has no case

*Are Sandy Hook Skeptics Delusional with "Twisted Minds"?*

and we should not be concerned about the "parents of the victims" at Sandy Hook, because there were none.

One of his best observations concerns what a real evacuation would have looked like, which would have been something a lot like this:

When you combine the missing 469 children being evacuated from the school, the absence of EMTs hurrying into the school to rush those little bodies off to hospitals where doctors could pronounce them "dead or alive", the denial of access to the bodies by their parents, the lack of urgency about what was taking place—including *rearranging the children to take a staged photograph*—there really is no room for doubt that this was a drill, which even Obama Department of Education officials have confirmed.

**Lenny Pozner's vicious attack.**

Lenny entitled his commentary, "*Our Grief Denied: The Twisted Cruelty of Sandy Hook Hoaxers*", and begins with this image and two paragraphs that follow here, which commit fallacies that I spent 35 years teaching undergraduates to avoid. After all, if none of those children actually died on 14 December 2012, then they are not "committing lies" or "spreading misinformation" as the author of this assault claims.

The most obvious is that of *begging the question* by taking for granted the issue under consideration, namely, whether or not 20 students and 6 adults were murdered by Adam Lanza at Sandy Hook Elementary School on 14 December 2012:

*More than a year and a half after Adam Lanza brutally murdered 26 women and children at the Sandy Hook Elementary School in Newtown,*

*Jim Fetzer Ph.D. & Kelley Watt*

*parents and relatives of the victims still relive the terror of that fateful day along with the daily anguish and torment they suffer over the loss of their loved ones.*

*Worse, they have to suffer the onslaught of delusional conspiracy theorists, commonly called hoaxers, who claim Sandy Hook was a "false flag" event concocted by the government as a pretext to gun confiscation.*

*As a parent of one of the murdered students, Noah Pozner, I have worked to debunk and stop the cruel and hateful hoaxers who use the Internet to spread their lies. Recently, some hoaxers have stepped up the intensity of their twisted campaign in an effort to draw more people into this destructive tale of misinformation and continue to disrupt the lives of victims' families.*

*Equally important, however, is the appeal to pity, which, in this case, entails the alleged grief that the victim's parents have had to endure, where what the "Sandy Hook hoaxers" is only cruel if those 26 children actually died that day.*

*We can only feel their grief if their children actually died, where none of their reactions were remotely like the genuine grief expressed by the parents of dead children in Gaza.*

*We have no responses remotely comparable from the alleged "parents" of dead children at Sandy Hook. Just as you can search in vain for the*

missing children, you can search in vain for reactions from them to the alleged deaths of their children. Try Robbie Parker, father of Emilie, meeting the press, for example; or try Anderson Cooper interviewing the parents of Grace McDonnell. Search for any parent displaying real grief. It's not there.

**Noah Pozner's "death certificate"**

Upon first consideration, Lenny's "death certificate" for Noah Pozner looks authentic, where questions only arise when you take a closer look. For it to have been published by his father, Lenny, is a significant development, since it is the first concrete proof we have that any child actually died at Sandy Hook. As I have emphasized, there have been extraordinary efforts to suppress information about these 20 deaths:

*As Dennis Cimino has observed, why would they need to use different typewriter ribbons on that certificate for different fields of it? and why is the certificate clearly with shaded areas that are not uniform like authentic death certificates are? You can clearly see that the typewriter clarity is blurry in some fields and clear and crisp in the others, meaning that, while the blurry ones may have been done with a typewriter, the clear sections were photoshopped into the document. His observations have been reinforced by those sent to me by Bob Sims:*

- (1) I am rather surprised, according to the copy you posted, that any branch of government was still using typewriters at all, when computers can do it so much better. However, the use of a typewriter in this case makes it much easier to spot fraud.*
- (2) For starters, can you see any reason for the government typist to change the ball back and forth on the IBM machine I must assume was being used, because I cannot think of a reason to go to the extra trouble, and what for?*
- (3) For example, look at the very top in Box 3, where the date is posted. Why is that type clearly smaller than the rest of the page? You would have to change the ball for this, but for what reason?*
- (4) Now look at the capital "A" in Box 12 for Residence (Alpine). It is identical to the capital "A" in Box 22 for Mailing Address (Alpine). It is also identical to the capital "A" in Box 33 for Funeral Home. This is totally as expected, is it not? Read on.*
- (5) Note that the capital "A" in question above in three different boxes has a small flag at its pinnacle. Compare that to the capital "A", without the small flag in Box 4, Time of Death, Box 26, City or Town, Box 27, County of Death, and Box 39, Time Pronounced, and in Box 46, Time of Injury.*
- (6) Compare Box 1, "Noah," with Box 7, "November," and you will clearly see that the spacing between the "N" and the "o" is quite different.*
- (7) Compare Box 1, the "N" in "Noah," with Box 26, the "N" in "SANDY." They are clearly different.*
- (8) Compare Box 1, "Samuel," with Box 11, "Sandy," and again, the spacing between the "S" and the "a" is clearly not the same.*
- (9) In fact, the entire spacing in Box 1 is unlike any other in the forged document.*

*Are Sandy Hook Skeptics Delusional with "Twisted Minds"?*

*(10) Compare the name "Pozner" in Box 1 with "Pozner" in Box 20, clearly not the same.*

Noah Pozner's death certificate is a fake, which we have proven on a dozen or more different grounds. But if Sandy Hook had been real, there would have been no reason to fake it. QED

Moreover, Noah Pozner's "death certificate" states that "*No autopsy was performed*", while the "official report" states, "*All the victims were given autopsies*". We know they cannot both be true. It would be tempting to presume that one of them is accurate and the other a mistake. But insofar as they are both predicated on the presupposition Noah Pozner and 19 other children actually died at Sandy Hook, they both appear to be false. *We have no authentic proof that any of those children, including Noah Pozner, actually died. None--for the obvious reason that none of them died!*

**Is "Lenny Pozner" Noah's father?**

One of the more intriguing developments related to the Pozner case is that the man who calls himself "Lenny" and poses as Noah's father initiated contact with one of the members of the Sandy Hook research group, with whom I have collaborated in publishing several articles, including "*Top Ten Reasons: Sandy Hook was an elaborate hoax*". I interviewed her and Kate Slate together on "*The Real Deal*", ([radiofetzer.blogspot.com](http://radiofetzer.blogspot.com)): 24 March 2014. Here is what "Kelly from Tulsa", as honest as the day is long, wrote me about her "conversations with Lenny":

*I received an email message several months ago from Google+ stating Lenny Pozner was following (cyber stalking) me, so I hit the reply button and said to Mr. Pozner, "Why are you following me on Google+, is it because I don't believe anything about the official story?" Mr. Pozner wrote me back stating he had indeed lost his son and the death certificates were available to prove it for \$19 from the Newtown Clerk's office and I told him that the death certificates were not available and that the town had them sealed and I didn't believe it was really Noah's father otherwise he would have known that and I wasn't going to waste my time talking through emails to someone posing to be Noah's father.*

*To make a long story short we emailed back and forth until late in the evening when he stated he was tired of using the keyboard and could we talk on the phone. I gave him my cell number and we talked until 3:00 am and proceeded to talk everyday for the next 5 weeks, often multiple times on the same day.*

*Jim Fetzer Ph.D. & Kelley Watt*

*I would say we spent 100 or more hours on the phone back and forth over a 3-week time period. We laughed, we shared photos and I got the impression he was a soft spoken likable guy, at the same time. I never got the impression he lost his son nor was he able to convince me even though he tried somewhat hard.*

##### Obituary

POZNER, NOAH SAMUEL  
Noah Samuel Pozner, on December 14, 2012 a victim of one of the tragic events of last Friday at Sandy Hook Elementary School. Noah was born in Danbury, CT east of Lenny and Veronique Pozner. How do you capture the essence of a six year old? Just a few words? Noah was an impish, larger than life little boy. Everything he did conveyed action and energy through love. He was the light of our family, a little soul devoid of spite and fearfulness. He was so forever blessed by his mother, father, siblings, Doreen, Michael, Sophia and Sam Arvile, his grandparents Marie, Dick, Joan, Deanna and Lena, uncles and aunts, Arthur, Stephen, Gene, Patricia and Victoria. May you fly to that beautiful valley and rest for us there. Funeral services will take place on Monday, December 17, 2012 (TODAY) at 1:30 PM from The Abraham L. Green and Son Funeral Home 88 Beach Road in Fairfield, with interment following at the local Cemetery on Mosk Road in Monroe. Memorial contributions may be directed to the planting of trees in Israel.

*The first time we spoke until the wee hours of the morning: I asked him to produce the following items (by the way, this call began on Friday night and went until Saturday morning) a death certificate for his son, his son's birth certificate showing he had been born, a photo of his wife in the hospital with Noah and Noah's twin sister as well as Sandy Hook report card.*

*The following Monday he sent me an email telling me to check my inbox and sure enough, much to my surprise, he had posted all the things I asked for on his lenpoz.com website. However, the photo was not of his wife in the hospital, nonetheless, he did post a photo of Veronique with the two newborns in her arms. The death certificate I believe stated he was "never married" which I thought odd.*

*Speaking of his wife I asked him about Veronique working for the State Department in some capacity to disarm the country of Switzerland and he told me she never worked for the State Department but was a nurse, to which I asked for her nursing certificate (which he sent). Since Veronique's mother worked for the UN, I decided to call the office in the US Embassy and disguised myself as a foreigner to ask for Mrs. Veronique Haller. I was told that "she had left her post in 2013" (after she had been discovered working there for gun control in Switzerland).*

*On Noah's birth certificate, it states that Veronique was born in Switzerland, but Lenny told me it was a different "Veronique Haller". I told him I felt he was lying to me and I believed it was his wife. I told Lenny that the name "Veronique Haller" was unusual and for it not to be the same*

*Jim Fetzer Ph.D. & Kelley Watt*

would probably be a class action lawsuit claiming fraud and that, unless I had made a donation, I could not expect to be a part of that suit. I also told Lenny that a friend of mine agreed with me and had just made a donation. The next day he returned her money because if a lawsuit does ensue, he did not want her to be a beneficiary.

He wrote me one last email after that, which said, "Fuck You Bitch", and that was the last I heard of my friend, Lenny Pozner. I found it rather strange that, every day—even numerous times a day—I would let it be known that I thought he was lying, yet he never once got upset or mad. When I brought up the money issue was when he ended our friendship. Sad! Go figure! Meanwhile, Noah's mother has claimed that she has released a photograph of his body. But no one I know can find it. So where is it?

For those who base their conclusions upon logic and evidence, there is no doubt that, as Paul Preston was told by his contacts in the Department of Education of the Obama administration, it was a drill and no children died, which was done to promote an anti-gun agenda. Yet the charade continues. Not only were stories and photos published predating "the massacre", but even NPR is running stories about the traumatic effects for the Sandy Hook first responders. No children died—not even Noah Pozner, it would appear—yet the charade continues without end.

**[Editor's note:** Although Appendix C, *The Sandy Hook Timeline*, includes reports from the media, contemporaneous at the time, that copies of the death certificates had been released under pressure from the press to the *New York Post*, none of us has been able to obtain copies—not do we know of anyone else who has succeeded. Professor James Tracy, for example, wrote to *The Post* asking for copies and received no response. This appears to have been yet another false report like that from the *Hartford Courant*, which claimed that it had receive the *FBI Report on Sandy Hook*. But there appears to have been no FBI investigation of Sandy Hook, where that, too, appears to have been just one more in an endless stream of lies, deceit and deception surrounding Sandy Hook.]

*by Jim Fetzer, Ph.D.*

It's bad enough when *The New York Times* and *The Washington Post* publish propaganda and disinformation about Sandy Hook. But now *The Chronicle of Higher Education* has published one of the most disgraceful and contemptible articles I have encountered in my entire life. Authored by one Kevin Carey, it has no redeeming merit: even in relation to issues of academic freedom, it reflects a completely corrupt and grossly unethical conception. Here are some extracts and my reply, where you can find the text in full on-line. As of this date and time, *The Chronicle* has yet to publish my response.

## **Academic Freedom Has Limits. Where They Are Isn't Always Clear.**

By Kevin Carey | JANUARY 15, 2016

**T**his month Florida Atlantic University fired a tenured professor of communications named James F. Tracy, citing his failure to file routine paperwork. This fact is both technically true and essentially false. Tracy was actually fired for bringing shame and embarrassment upon his university by publicly and vocally insisting that the massacre of 20 first-

*Jim Fetzer, Ph.D.*

graders and six educators at Sandy Hook Elementary School in December 2012 did not occur.

His efforts in this regard included mailing a certified letter to the parents of Noah Pozner, a 6-year-old Sandy Hook victim whose body was torn to pieces by .223-caliber bullets fired from a military-style rifle, in which he demanded proof that their son had ever been alive. When they protested, Tracy called them "alleged parents" who were financially profiting from a hoax.

**One of the most difficult jobs campus leaders face is choosing between academic community and academic freedom.**

Florida Atlantic got stuck with a tenured truther, and showed him the door. It is not the only institution recently forced to choose between academic community and academic freedom. These values, we are learning, are not wholly reconcilable at a modern university. One of the most difficult jobs campus leaders face is choosing between them.

Tracy's repugnant conduct has few defenders, none among the sane. Other cases are more complex. Wheaton College, in Illinois, a mostly-white evangelical college, insists that it is not firing Larycia Hawkins, a tenured woman of color, for wearing a *hijab* in solidarity with oppressed Muslims. The official reason has to do with Hawkins's suspiciously coincidental failure to adhere to religious doctrine involving the tripartite nature of God, a dispute that mattered a great deal in England 400 years ago.

[additional text omitted]

**Great universities can afford to shelter a few cranks and fools in order to support genuinely original thinking.**

Ultimately, there must be ample space on campus for ideas that seem bizarre and transgressive. We are all partially blinded by the consensus of our times. If a professor wants to use the rare privilege of tenure to compare a democratically elected governor to Hitler circa 1935 or somesuch, it's best to let the court of public opinion and academic labor market take their courses. Great

universities can afford to shelter a few cranks and fools in order to support genuinely original thinking.

But that protection should be extended well beyond the shrinking ranks of the tenured professoriate. And it should be balanced against a college's obligations to its students and its core values. While Florida Atlantic was right to fire James Tracy, it should be forthright about why. Not because of his offenses against truth and decency, though they are many, but because someone so cruel and possibly deranged has no business being employed to teach undergraduate students. Sometimes, the expansive protections of academic freedom are strengthened by defining where they end.

**James Henry Fetzer**

This article is an obscenity: it displays massive ignorance, willingness to believe the official account of practically anything, and no research or intellectual ability at all. I had published 30 articles on Sandy Hook before I edited NOBODY DIED AT SANDY HOOK (2015), a 425-page volume that demonstrates beyond any doubt whatever that the school had been abandoned by 2008, that it was a two-day FEMA drill, that no children or adults died and that it was done to promote gun control. The proof is massive, thorough, detailed and compelling. Read it!

This was a two-day FEMA drill, with the rehearsal on the 13th, going LIVE on the 14th. Some participants became confused and put up donation sites on-line for an event that had yet to occur. Adam Lanza's death was initially recorded in the Social Security Death Index as having taken place on the 13th, which makes his accomplishment in shooting 20 kids and 6 adults the following day all the more remarkable. We even have the FEMA manual, which I made the Appendix A.

The book was too hot for the Obama administration and was banned less than a month after publication--it had already sold nearly 500 copies--by amazon.com, where Jay Carney became Senior Vice President when he left the White House. I suspect one of the reasons is that I included another appendix demonstrating that, when guns are banned, crime goes up. Does anyone seriously believe that criminals are going to be intimidated by citizens who have been disarmed? Far from "an epidemic of gun violence", it has been dropping steadily since 1993.

*Jim Fetzer, Ph.D.*

There are thirteen contributors to the book, including six Ph.D. (current or retired) professors. Among the others is Paul Preston, an LA area Superintendent of Schools, who was so troubled by what he observed being broadcast from Sandy Hook that he reached out to his contacts in the Obama Department of Education, each of whom confirmed that it had been a drill, that no one had died and that it had been done to promote gun control. When it was banned, I released it to the public as a pdf for free. You can find it many places, including at [rense.com](http://rense.com).

Far from James Tracy harassing the Pozners, they were stalking him. The son they claim to have died on 14 December 2012 was also reported to have died again 16 December 2014 in Pakistan. And when Kelley Watt, who had spent more than 100 hours in conversation with Lenny, told him she did not believe a word he said, that she did not believe he had a son or that his son had died, he sent her a death certificate, which turned out to be a fabrication. It's in the book (p. 181).

Tracy was seeking confirmation from Lenny that Lenny had a bona fide copyright claim to the photograph of Noah, for violation of which he had lodged a complaint against his [memoryholeblog.com](http://memoryholeblog.com). James has been among the best students of Sandy Hook and authored the first scholarly article, focusing on the bizarre press conference held by Wayne Carver, M.E., who observed in passing that he hoped this did not come crashing down on the people of Newtown. It's there as Ch. 1.

We have 50 photographs of furnishing the Lanza home to serve as a prop, where the most striking is of the Nancy Lanza bedroom, where Adam is alleged to have shot his mother four times in the head. There is some red stuff on the bed (which you can see in color in the pdf), but it is not blood and not in copious quantity. It looks to me like raspberry jam. On a wooden chest, there are forms, where they were keeping track of how they arranged the furniture. And beneath the leg of the bed is a blue moving pad, which they forgot to remove in their haste (Ch. 7).

*The Chronicle of Higher Education Buckles to the "official account"*

We also have 50 photographs of them refurbishing the school to serve as the stage, including the moving vans and moving tags still on the nameplate for a classroom. The topper is Exhibit 26 (of Ch. 8), with the SWAT team already in place, the windows of Classroom 10 undamaged (where they would be shot out during the event), the flag at full mast, crime scene tape up for a crime that has yet to be committed, and Wayne Carver relaxing with his arms folded awaiting the arrival of his portable mortuary tent. I have published it many, many places.

We also have photos of the windows of Classroom 10 BEFORE and AFTER and of the porps drilling holes in the window frame to simulate the effects of bullets. We also have photos of pink rods extending from those holes, which are at 90° angles to the window panes and 55° angles from the purported location of Adam Lanza when he fired them. Each of them is perfectly parallel, which is what you would expect if you knew how they were created but which would leave you in a state of disbelief if you did not. These are not the effects of an actual shooting.

Because James is an excellent scholar, Lenny has been worried that, if the truth were to become public, he may have to return more than \$1,000,000 that he has received in donations from sympathetic but glibble Americans and might even be prosecuted for fraud. Others have benefitted as well, where the "first responders" have split \$2,300,000 for participating in a charade. And Newtown has received \$50,000,000 for a new K-4 school, when the average nationwide is \$7,000,000. Both the actors and the community are being rewarded for participating in a drill.

So we have an author for *The Chronicle of Higher Education* who writes about an event about which he knows nothing. Not least shocking to me is that the fact the book was banned drew a lot of attention from the alternative press. The fraud is so massive and the stakes are so high that even *The New York Times* and *The*

*Jim Fetzer, Ph.D.*

Washington Post are publishing palpable disinformation and propaganda about Sandy Hook, as I document in the latest of my blogs at [jamesfetzer.blogspot.com](http://jamesfetzer.blogspot.com). It infuriates me that something this reprehensible should appear in *The Chronicle*.

This is a perfect example of the arrogance of academicians who think they have superior access to knowledge and to truth. Since my retirement in 2006, I have been devoting myself to unraveling the controversial political events of our time, which includes JFK, 9/11, Welstone, Sandy Hook and the Boston bombing. None of them are as we have been told by our own government. But unless you were to expend the time and effort required to sort them out, you would never know. It pains me that a journal I have so long respected should fall so miserably short.

*Official Narrative as Institutional Authority: The War on Free Speech*

## AFTERWORD

# Official Narrative as Institutional Authority: The War on Free Speech

*by James Tracy, Ph.D.*

In his classic essay, "The Mass Society," C. Wright Mills makes an enduring set of observations on the import of genuine political communication. He distinguishes between "a public," by which he means an autonomous citizenry informed by a participatory communicative process, and a "mass," or set of social relations where the state has exerted all but complete control over communication and opinion formation.

In the mass society, Mills argues, "institutional authority, with its sanctions and controls, penetrates the public ... One thinks of the late Nazi street-and-block system, the eighteenth-century Japanese chum, the Soviet cell structure. In the extreme, the formal structure of power coincides, as it were, with the informal ebb and flow of influence by discussion, which is thus killed off. [1]

In an era of false flag terror and mass casualty incidents this "formal structure of power" exerts itself as the official narrative of an event. A form of psychic and emotional control short-circuiting reason, such a storyline is laid out by government authorities and vigorously reinforced by corporate media in the event's immediate aftermath. At this time of collective trauma such an explanation is most apt to take hold. The Sandy Hook School massacre of December 14, 2012 was one such spectacle where this dynamic played out great precision; one where examining the facts that contrasted with the prevailing narrative and its implied institutional authority became especially taboo. No one has become more aware of this over the past few months than the present author.

Along these lines, many understand how the phrase "conspiracy theory/theorist" is strategically used in mainstream political discourse to label

*James Tracy, Ph.D.*

thought or utterance conflicting with the official story. The term is particularly effective against a target when public discourse is misinformed on momentous events, often by the very news media that supposedly exist to inform their constituencies. Professional journalists and academics especially fear being identified with anything that smacks of "conspiracy," and this often translates to professional malpractice by intentionally avoiding close analysis of key issues and events. The term has been used against this author repeatedly by major news media, which since 2013 have sought to pressure my employer, Florida Atlantic University, to fire me from my tenured position of Associate Professor of Journalism and Media Studies for essentially practicing what I have been professionally trained to do.

*Noah Pozner has the unusual distinction of having been reported to have died twice: once in Newton in 2012, then again in Pakistan in 2014.*

### The "Sandy Hook Victims"<sup>TM</sup> Great Subterfuge

In December 2015 the *South Florida Sun-Sentinel* published a guest opinion attributed to Lenny and Veronique Pozner, the parents of six-year-old Noah Pozner who allegedly perished in the Sandy Hook massacre. The article, titled, "Sandy Hook Massacre 3rd Anniversary: Two Parents Target FAU Conspiracy Theorist," included the subtitle, "FAU Professor James Tracy Taunts Sandy Hook Victims." In the editorial the Pozners use their roles in the shooting narrative to frame me as a stalker. This was done primarily by misrepresenting a letter I sent to Lenny Pozner's "HONR Network," an organization opposed to independent research on the event calling the official storyline into question. My letter took Pozner to task for a dubious copyright infringement claim he filed with my Internet service provider in early 2015.

"Tracy even sent us a certified letter demanding proof that Noah once lived, that we were his parents, and that we were the rightful owner of his

*Official Narrative as Institutional Authority: The War on Free Speech*

photographic image," the Pozners waxed indignantly.

We found this so outrageous and unsettling that **we filed** a police report for harassment. Once Tracy realized we would not respond, he subjected us **to ridicule and contempt on his blog**, boasting **to his readers** that the "unfulfilled request" was "noteworthy" because we had used copyright claims **to "thwart continued research of the Sandy Hook massacre event.**

The article skillfully downplays exactly how Lenny Pozner himself prompted my letter, which was sent **to the HONR Network's business address** included in the complaint. In fact, the certified letter receipt wasn't even signed by Lenny or Veronique Pozner, but rather **by an "agent"** who apparently picks up HONR Network mail at a retail shipping and postal box center.

Contrary to the claim that I was "taunting" or "harassing" the family, Pozner had his HONR network associates, which include several individuals assuming false "sock puppet" identities on social media, have pursued borderline criminal projects **to infiltrate, disrupt, and otherwise intimidate individuals who've publicly questioned and researched the Sandy Hook event.** In fact, Pozners' group has been known to ruin the online reputations of individuals, contact neighbors, relatives, and employers with false and misleading information on given targets, and carry out Internet bullying campaigns **to discourage citizen journalists.**

This treatment was crystallized in the Pozners' December 10 piece, which even pitched a blueprint for how and why FAU administrators should proceed with my termination.

### **The FAU Faculty Handbook**

When do the interests of the college and its students take precedence over the tenure of a professor who has clearly proven himself in violation of the university's own policy? The FAU Academic Affairs Faculty Handbook clearly states that "A faculty member's activities which fall outside the scope of employment shall constitute misconduct only if such activities adversely affect the legitimate interests of the University."

Shortly after the well-crafted subterfuge appeared and I offered a response the same paper published a few days later,[2] it reverberated across a broad array of corporate news media. Almost without exception the stories repeated the Pozners' claim sans any reference to Lenny Pozner's harassment of me through a bogus copyright claim to an image of his alleged son that had been reproduced **many millions of times** over following the family's voluntary circulation of the photo in 2012.

*James Tracy, Ph.D.*

In previous months Pozner had filed dozens of such claims against bloggers and YouTubers, in particular those posting the feature-length documentary, *We Need to Talk About Sandy Hook*, released in late 2014. Many YouTube researchers had their channels summarily closed down following such unsubstantiated claims, despite the fact that using such imagery clearly falls under the "fair use" provision of US copyright law.

With the above in mind, my certified letter to Pozner's organization pointed to the constitutional implications of such harassment and accordingly requested substantive evidence that he in fact owned the image he was requesting my ISP or I remove from a blog post. Few news articles actually discussed or linked to the letter, with *The New York Times* a rare exception. [3] Yet even the *Times* failed to address the fact that Pozner's copyright infringement claim threatened the most fundamental free speech protections that even my Internet Service Provider acknowledged.[4]

*According to the FAU Faculty Handbook, a FAU professor's primary responsibility is to seek and to state the truth as he sees it.*

#### **Ethical Conduct of the University Community**

The University acknowledges a concern for values and ethics that are important to the whole educational experience. A faculty member is expected to show an awareness that membership in the academic profession carries with it special responsibilities. The following responsibilities of faculty members are taken from the American Association of University Professors (AAUP) Statement on Professional Ethics, with slight modifications.

The professor, guided by a deep conviction of the worth and dignity of the advancement of knowledge, recognizes the special responsibilities of the profession. The professor's primary responsibility to his or her subject is to seek and to state the truth as he or she sees it. To this end, the professor devotes energies to developing and improving scholarly competence. The professor accepts the obligation to exercise critical self-discipline and judgment in using, extending and transmitting knowledge. The professor must never seriously hamper or compromise freedom of inquiry.

#### **My Letter to Lenny and the HONR Network**

Here are the key portions of my March 30, 2015 letter to Pozner and his organization:

As you know, in addition to [the photograph of Noah Pozner's] broad circulation following the Sandy Hook Elementary School massacre event on December 14, 2012, this image was published by British Broadcasting Corporation and received similar worldwide circulation following the

*Official Narrative as Institutional Authority: The War on Free Speech*

December 16, 2014 Taliban attack on the Army Public School and Degree College in Peshawar Pakistan.

You have provided your electronic signature under penalty of perjury that you are the copyright holder of the above referenced image and have accordingly requested that it be removed from Memory Hole Blog.

I have voluntarily removed the image in question on March 30, 2015. However, given that numerous similar copyright complaints made by you against parties that have publicly questioned and analyzed the Sandy Hook massacre event, I have reason to doubt the good faith nature of your March 22, 2015 DMCA copyright infringement claim. An action with such potential weight to stifle free speech needs the utmost scrutiny. I am therefore requesting written evidence of the following from you:

1. Proof of your identity via copy of a government-issued document, such as a state driver's license or passport.
2. Proof of your relationship to the deceased party, Noah Pozner, whose alleged photograph appears in the image in question referenced above.
3. Proof of your ownership of said image via a signed and notarized statement from a qualified and licensed forensic expert substantiating your legal ownership of said image, including the date and time of the image's capture.[5]

Professional journalists could have easily accessed, reviewed, linked to and quoted from the above correspondence, and pursued Pozner for additional information. But already complicit in constructing and perpetuating the official Sandy Hook massacre narrative, such outlets doubled down, reinforcing the narrative by making James Tracy an even more menacing antagonist whose behavior in this instance bordered on criminal.

My query was pitched as a callous, out-of-the-blue request for "proof that Noah once lived." This was central to convincing the public and academic community, including many of my colleagues and students, that my termination was warranted.

As an example of how the strategy worked, *The Daily Beast* interviewed a former FAU journalism student who had taken two classes with me in 2013, one of which involved journalism criticism. "[Tracy's class] was basically about news stories that the media doesn't cover as widely. That was the overarching subject of the class," said former student Christopher Ross."

*James Tracy, Ph.D.*

The article continues to explain how the student stood behind Tracy in what he believed to be a free speech fight with the college. He called him a "great professor." "I had him the first class he taught coming back from the Sandy Hook [controversy]. He didn't talk about it in the class. He completely separated what he did as a teacher," said Ross.

But when told that Tracy had sent a certified letter to the Pozner family demanding proof of the existence of their dead son, Ross changed his tune. "Oh, man," he said, then sighed. "Now, hearing that, I can understand why the school would want to take action. I think it's okay to express your opinion, but you've gotta let the parents grieve." [6]

### **Jewish/Israeli Role in Termination?**

The Pozners' complaint resonated loudly in the Jewish press, with the Pozners' editorial being reproduced in the *Jewish Forward*, [7] and news of my pending termination was trumpeted by *The Times of Israel*. [8] Given such exposure combined with South Florida's large Jewish population and the Pozners' ethnicity I can only conclude that this constituency was especially vocal toward FAU leaders that I should pay with my livelihood. One party that contacted me as the termination proceeded suggested that Pozner wrote the letter at the behest of wealthy Jewish donors.

While speculative, the allegation makes some sense given that over the past few years certain prominent figures at FAU have expressed interest in appointing a university president who would unflinchingly fire any faculty member who fell out of line. In 2013, following press attention of my analyses of Sandy Hook and a handful of other controversial events involving FAU faculty and administrators, FAU Foundation Board Vice Chair and former Virginia "super lawyer" Jay Weinberg observed,

Because we are a diverse university ... that doesn't mean that we tolerate bigotry or prejudice. You have to draw a keen distinction between free speech and hate speech. I think that [in light of] recent events at this university, we need a president that understands that and who will act decisively with respect to it. [9]

Jeffrey Feingold, a dental industry entrepreneur and powerful Jewish Republican Party activist and FAU trustee, called for my termination at at least one trustees meeting in 2013, with the identical rationale presented in the Pozners' December 10 editorial. Feingold also bizarrely argued at the time that FAU students protesting the university's affiliation with the for-profit prison company Geo Group "could lead to violence like the Boston Marathon bombing." [10]

*Official Narrative as Institutional Authority: The War on Free Speech*

In addition to South Florida having one of the largest Jewish populations in the United States, thus possessing potential collective influence on area institutions, there are also close ties between FAU, the State of Florida, and the nation state of Israel. For example, FAU is a co-sponsor of the Florida Israel Institute, an organization established in 2012 "to promote the development of enhanced governmental, economic, technological, cultural, educational and social ties between the State of Florida and the State of Israel." [11]

Florida Governor Rick Scott accompanied FAU trustee Feingold on a trade mission to Israel in 2011. One upshot of that trip was a 2014 student exchange program between FAU's new medical school and Technion-Israel Institute of Technology, Israel's "leading science and technology university," according to a report in the Sun-Sentinel. Chaim Shacham, the consul general of Israel to Florida and Puerto Rico, notes that Florida and Israel "have a 'unique' relationship.

Florida has laws to prevent state dollars from going to companies working with Iran" and "Florida businesses have offices in Israel." [12] In addition, several FAU faculty, including Israeli-American journalist Ilene Prusher, who was hired by the university in June 2015 to teach journalism in Tracy's very department, have ties to the influential nation state.

### **Conclusion: "Limits" to Academic Freedom/Free Speech**

Less than one week after after the Pozners' co-authored piece appeared in the Sun-Sentinel I received a letter from the Associate Provost in charge of personnel matters that the proposed disciplinary action based on a seven week-long dispute I had with the administration concerning its "outside activities" policy.

To my astonishment the recommended penalty was termination from my tenured position as Associate Professor. As if to placate the mass, upon sending me the letter the administration issued a press release stating that it was moving to fire me, but that it couldn't comment further because its own policy prevented any public comment on personnel matters!

For the next two weeks news outlets reinforced the notion of how there were "limits" to academic freedom and free speech, and that my letter to respond to Lenny Pozner's harassing copyright infringement claim simply crossed the line of civility and professional comportment. How could the official narrative the same media had devoted so many of their resources toward ever be questioned? Sadly, though predictably, journalists never pursued Pozner for the same information I had reasonably requested nine months earlier.

James Tracy, Ph.D.

The Noah Pozner "death certificate" is an obvious forgery where the upper portion has no file number and the wrong approximate time of death.

As an example, a few days after the Pozners' editorial appeared, I confronted a local broadcast reporter in my driveway, asking if he had done his due diligence in interrogating the Pozners' claims before knocking on my front door. "Mr. Pozner showed me a death certificate" for his son, the reporter replied. As many Sandy Hook researchers are aware, the very document Pozner circulated in 2014, with its inconsistent tones, fonts and clear digital manipulation, was clearly a forgery. Yet such "proof" was entirely acceptable to this "journalist." [13]

With journalists this credulous it is little wonder that Mill's mass society is a greater reality than ever before. In an era where information is purportedly at our fingertips, the prevailing narratives of major events take precedence over the facts and documentation that simply don't support such storylines. Academics and those capable of earning a living as independent authors are the only members of society who have the security and privilege of taking

*Official Narrative as Institutional Authority: The War on Free Speech*

on particularly controversial subject matter. My experience suggests that even tenure is not a safeguard for addressing such topics, particularly if institutional authority can harness and manipulate public emotion in such a powerful way toward the messenger.

Earlier that day, CNN and Cooper sent their regional reporter John Zarrella to Tracy's place of employment, where he accosted the dean of his college to ascertain Tracy's location, eventually interviewing the university president. Zarrella and his crew then proceeded to Tracy's residence where they taped and aired video footage while telephoning for an on-camera

"To suggest that reporters on the ground didn't work to find out what happened there on the ground is beyond crazy," Cooper opined. "Everybody asked questions. That's what we do." ## ***Are Sandy Hook skeptics delusional with "twisted minds"?***

***by Jim Fetzer Ph.D., & Kelley Watt***

*"Noah Pozner's death certificate is a fake. But if Sandy Hook had been real, there would have been no reason to fake it. QED"*—Jim Fetzer

Someone calling himself "Lenny Pozner", who purports to be the father of the alleged Sandy Hook victim, Noah Pozner, has launched a vicious attack upon those who are skeptical of the "official story" of the Sandy Hook event.

A response has been published by *AbleChild*, observing that the problem has arisen because the "official report" from Connecticut authorities, especially the *Sandy Hook Final Report* authored by Danbury State's Attorney Stephen Sedensky, was a shoddy piece of work that raised more questions than it answers. This exchange deserves serious consideration, not least of all because Noah Pozner appears to be the only alleged "child victim" for whom their birth and death certificates have been released by their "parents". There is no stronger case.

That makes the Noah Pozner case of special significance as an acid test: *if Noah really died, that defeats the critics' claim that "no children died at Sandy Hook"; but if Noah did not die, especially if Lenny's "proof of death" turns out to be fake, then this effort to defeat the critics will have backfired badly.* And it is very straightforward to demonstrate that *AbleChild* is right about the "official report".

### **The "official report" on Sandy Hook**

At this point in time, it is relatively trivial to demonstrate that the "official report" on Sandy Hook that was authored by Danbury State's Attorney

*Jim Fetzer Ph.D. & Kelley Watt*

Stephen Sedensky does not establish a causal nexus between the shooter, his victims and the weapons he is alleged to have used. It suffers from the shortcomings of concluding that there were no fingerprints on the .22 rifle that was allegedly used to shoot his mother and, even more surprisingly, that of the large number of shots that were fired from the 5.56 calibre Bushmaster (close to 150 rounds), none of the bullet fragments could be matched to the weapon:

“No positive identification could be made to any of the bullet evidence submissions noted ... in 5.56 mm caliber. The physical condition of the bullet jacket surfaces were severely damaged and corroded. They all lacked individual striated marks of sufficient agreement for the identification process. The test fires also exhibited a lack of individual striated marks on the bullet surface for comparison purposes. This condition can be caused by fouling in the barrel of the rifle and the ammunition itself. The Bushmaster rifle cannot be eliminated as having fired the 5.56 caliber bullet evidence examined.” quoting from the 6/19/13 Forensic Science Laboratory report.

Under these circumstances, it would have been impossible for the alleged shooter, Adam Lanza, to have been convicted in a properly conducted court of law for his alleged offense, because *no causal nexus has been established between the purported shooter, his weapons and the 20 children and seven adults he is supposed to have killed*, which one might have naively supposed was the point of the investigation. But if that was its goal, then its objective was not achieved. If there has ever been such an abysmal failure in the annals of forensic investigation, I would love to hear about it. This is absurd!

### **The staged photos for the fake event**

We have published several studies of the celebrated Shannon Hicks’ “iconic photograph”, which seems to show children being evacuated from Sandy Hook. But now we have additional proof it was staged, where the children were rearranged into a different sequence to create the “best shot” to convey the false impression that a real emergency was taking place. Here is addition proof that this was a hoax:

And a new video study offers further proof that this was only a drill, where the author is very patient and circumspect in arriving at the conclusion that it was a hoax and no children died. But, of course, if he is correct—and the evidence is over-whelmingly on his side—than Lenny Pozner has no case

*Are Sandy Hook skeptics delusional with “twisted minds”?*

and we should not be concerned about the “parents of the victims” at Sandy Hook, because there were none.

One of his best observations concerns what a real evacuation would have looked like, which would have been something a lot like this:

When you combine the missing 469 children being evacuated from the school, the absence of EMTs hurrying into the school to rush those little bodies off to hospitals where doctors could pronounce them “dead or alive”, the denial of access to the bodies by their parents, the lack of urgency about what was taking place—including *rearranging the children to take a staged photograph*—there really is no room for doubt that this was a drill, which even Obama Department of Education officials have confirmed.

### **Lenny Pozner’s vicious attack**

Lenny entitled his commentary, “*Our Grief Denied: The Twisted Cruelty of Sandy Hook Hoaxers*”, and begins with this image and two paragraphs that follow here, which commit fallacies that I spent 35 years teaching undergraduates to avoid. After all, if none of those children actually died on 14 December 2012, then they are not “committing lies” or “spreading misinformation” as the author of this assault claims.

The most obvious is that of *begging the question* by taking for granted the issue under consideration, namely, whether or not 20 students and 6 adults were murdered by Adam Lanza at Sandy Hook Elementary School on 14 December 2012:

*More than a year and a half after Adam Lanza brutally murdered 26 women and children at the Sandy Hook Elementary School in Newtown,*

*Jim Fetzer Ph.D. & Kelley Watt*

Photos of Sandy Hook Elementary School victims sit at a small memorial near the school on Jan. 14, 2013, in Newtown, a month after the horrific massacre that claimed 20 children and six women at the school. (Getty Images / January 15, 2013)

*parents and relatives of the victims still relive the terror of that fateful day along with the daily anguish and torment they suffer over the loss of their loved ones.*

*Worse, they have to suffer the onslaught of delusional conspiracy theorists, commonly called hoaxers, who claim Sandy Hook was a “false flag” event concocted by the government as a pretext to gun confiscation.*

*As a parent of one of the murdered students, Noah Pozner, I have worked to debunk and stop the cruel and hateful hoaxers who use the Internet to spread their lies. Recently, some hoaxers have stepped up the intensity of their twisted campaign in an effort to draw more people into this destructive tale of misinformation and continue to disrupt the lives of victims’ families.*

Equally important, however, is the *appeal to pity*, which, in this case, entails the alleged grief that the victim’s parents have had to endure, where what the “Sandy Hook hoaxers” is only cruel if those 26 children actually died that day.

We can only feel their grief if their children actually died, where none of their reactions were remotely like the genuine grief expressed by the parents of dead children in Gaza.

We have no responses remotely comparable from the alleged “parents” of dead children at Sandy Hook. Just as you can search in vain for the

*Are Sandy Hook skeptics delusional with "twisted minds"?*

missing children, you can search in vain for reactions from them to the alleged deaths of their children. Try Robbie Parker, father of Emilie, meeting the press, for example; or try Anderson Cooper interviewing the parents of Grace McDonnell. Search for any parent displaying real grief. It's not there.

**Children killed in Gaza playground shelling**

*By not doing anything Gaza's poor hospitals and a playground, where every child has been killed*

**Noah Pozner's "death certificate"**

Upon first consideration, Lenny's "death certificate" for Noah Pozner looks authentic, where questions only arise when you take a closer look. For it to have been published by his father, Lenny, is a significant development, since it is the first concrete proof we have that any child actually died at Sandy Hook. As I have emphasized, there have been extraordinary efforts to suppress information about these 20 deaths:

*Jim Fetzer Ph.D. & Kelley Watt*

As Dennis Cimino has observed, why would they need to use different typewriter ribbons on that certificate for different fields of it? and why is the certificate clearly with shaded areas that are not uniform like authentic death certificates are? You can clearly see that the typewriter clarity is blurry in some fields and clear and crisp in the others, meaning that, while the blurry ones may have been done with a typewriter, the clear sections were photoshopped into the document. His observations have been reinforced by those sent to me by Bob Sims:

*(1) I am rather surprised, according to the copy you posted, that any branch of government was still using typewriters at all, when computers can do it so much better. However, the use of a typewriter in this case makes it much easier to spot fraud.*

*(2) For starters, can you see any reason for the government typist to change the ball back and forth on the IBM machine I must assume was being used, because I cannot think of a reason to go to the extra trouble, and what for?*

*(3) For example, look at the very top in Box 3, where the date is posted. Why is that type clearly smaller than the rest of the page? You would have to change the ball for this, but for what reason?*

*(4) Now look at the capital "A" in Box 12 for Residence (Alpine). It is identical to the capital "A" in Box 22 for Mailing Address (Alpine). It is also identical to the capital "A" in Box 33 for Funeral Home. This is totally as expected, is it not? Read on.*

*(5) Note that the capital "A" in question above in three different boxes has a small flag at its pinnacle. Compare that to the capital "A", without the small flag in Box 4, Time of Death, Box 26, City or Town, Box 27, County of Death, and Box 39, Time Pronounced, and in Box 46, Time of Injury.*

*(6) Compare Box 1, "Noah," with Box 7, "November," and you will clearly see that the spacing between the "N" and the "o" is quite different.*

*(7) Compare Box 1, the "N" in "Noah," with Box 26, the "N" in "SANDY." They are clearly different.*

*(8) Compare Box 1, "Samuel," with Box 11, "Sandy," and again, the spacing between the "S" and the "a" is clearly not the same.*

*(9) In fact, the entire spacing in Box 1 is unlike any other in the forged document.*

*Are Sandy Hook skeptics delusional with "twisted minds"?*

*(10) Compare the name "Pozner" in Box 1 with "Pozner" in Box 20, clearly not the same.*

Noah Pozner's death certificate is a fake, which we have proven on a dozen or more different grounds. But if Sandy Hook had been real, there would have been no reason to fake it. QED

Moreover, Noah Pozner's "death certificate" states that *"No autopsy was performed"*, while the "official report" states, *"All the victims were given autopsies"*. We know they cannot both be true. It would be tempting to presume that one of them is accurate and the other a mistake. But insofar as they are both predicated on the presupposition Noah Pozner and 19 other children actually died at Sandy Hook, they both appear to be false. *We have no authentic proof that any of those children, including Noah Pozner, actually died. None—for the obvious reason that none of them died!*

#### **Is "Lenny Pozner" Noah's father?**

One of the more intriguing developments related to the Pozner case is that the man who calls himself "Lenny" and poses as Noah's father initiated contact with one of the members of the Sandy Hook research group, with whom I have collaborated in publishing several articles, including *"Top Ten Reasons: Sandy Hook was an elaborate hoax"*. I interviewed her and Kate Slate together on *"The Real Deal"*, ([radiofetzer.blogspot.com](http://radiofetzer.blogspot.com)): 24 March 2014. Here is what "Kelly from Tulsa", as honest as the day is long, wrote me about her "conversations with Lenny":

*I received an email message several months ago from Google+ stating Lenny Pozner was following (cyber stalking) me, so I hit the reply button and said to Mr. Pozner; " Why are you following me on Google+, is it because I don't believe anything about the official story?" Mr. Pozner wrote me back stating he had indeed lost his son and the death certificates were available to prove it for \$19 from the Newtown Clerk's office and I told him that the death certificated were not available and that the town had them sealed and I didn't believe it was really Noah's father otherwise he would have known that and I wasn't going to waste my time talking through emails to someone posing to be Noah's father.*

*To make a long story short we emailed back and forth until late in the evening when he stated he was tired of using the keyboard and could we talk on the phone. I gave him my cell number and we talked until 3:00 am and proceeded to talk everyday for the next 5 weeks, often multiple times on the same day.*

Jim Fetzer Ph.D. & Kelley Watt

*I would say we spent 100 or more hours on the phone back and Roth over a 5-week time period. We laughed, we shared photos and I got the impression he was a soft spoken likable guy, at the same time, I never got the impression he lost his son nor was he able to convince me even though he tried somewhat hard.*

However, the photo was not of his wife in the hospital, nonetheless, he did post a photo of Veronique with the two newborns in her arms. The death certificate I believe stated he was "never married" which I thought odd.*

*Speaking of his wife I asked him about Veronique working for the State Department in some capacity to disarm the country of Switzerland and he told me she never worked for the State Department but was a nurse, to which I asked for her nursing certificate (which he sent). Since Veronique's mother worked for the UN, I decided to call the office in the US Embassy and disguised myself as a foreigner to ask for Mrs. Veronique Haller. I was told that "she had left her post in 2013" (after she had been discovered working there for gun control in Switzerland).*

*On Noah's birth certificate, it states that Veronique was born in Switzerland, but Lenny told me it was a different "Veronique Haller". I told him I felt he was lying to me and I believed it was his wife. I told Lenny that the name "Veronique Haller" was unusual and for it not to be the same*

*Are Sandy Hook skeptics delusional with "twisted minds"?*

*person stretched the imagination but he said "Veronique" was a very common name overseas. Whatever!*

*Like I said, we talked for around 5 weeks and I felt we had developed a friendship of sorts. We laughed many times as he had a very good sense of humor, but my overall impression from my gut told me he was not being truthful and over and over my mantra was, "Your son did not die and on top of that you are much too old to have children that young." He asked me how old I guessed him to be and I said I was "around 61" and he said he was 47 which I did not believe. So I asked him for a driver's license, which he immediately sent before I could practically finish my sentence; but it had expired in 2009 and the photo did not look like the Lenny I had seen on lenpoz.com. In fact, we laughed, because I told him he looked like a Columbian Drug Lord—and he agreed.*

*Our friendship came to an end rather abruptly because I told Lenny that I was going to make a donation to his Noah's Ark website (to which he sent me the correct address) since there were several official and unofficial donation websites set up on his son's behalf. I explained that, since I did not believe his son nor any others died at the school as the result of any shooting, there*

*Jim Fetzer Ph.D. & Kelley Watt*

would probably be a class action lawsuit claiming fraud and that, unless I had made a donation, I could not expect to be a part of that suit. I also told Lenny that a friend of mine agreed with me and had just made a donation. The next day he returned her money because if a lawsuit does ensue, he did not want her to be a beneficiary.

He wrote me one last email after that, which said, "Fuck You Bitch", and that was the last I heard of my friend, Lenny Pozner. I found it rather strange that, every day—even numerous times a day—I would let it be known that I thought he was lying, yet he never once got upset or mad. When I brought up the money issue was when he ended our friendship. Sad! Go figure! Meanwhile, Noah's mother has claimed that she has released a photograph of his body. But no one I know can find it. So where is it?

For those who base their conclusions upon logic and evidence, there is no doubt that, as Paul Preston was told by his contacts in the Department of Education of the Obama administration, it was a drill and no children died, which was done to promote an anti-gun agenda. Yet the charade continues. Not only were stories and photos published predating "the massacre", but even NPR is running stories about the traumatic effects for the Sandy Hook first responders. No children died—not even Noah Pozner, it would appear—yet the charade continues without end.

This chapter originally appeared as "Are Sandy Hook critics delusional with 'twisted minds'?" (6 August 2014), *veteranstoday.com*.

[Editor's note: Although Appendix C, *The Sandy Hook Timeline*, includes reports from the media, contemporaneous at the time, that copies of the death certificates had been released under pressure from the press to *The New York Post*, none of us has been able to obtain copies—nor do we know of anyone else who has succeeded. Professor James Tracy, for example, wrote to *The Post* asking for copies and received no response. This appears to have been yet another false report like that from the *Hartford Courant*, which claimed that it had receive the *FBI Report on Sandy Hook*. But there appears to have been no FBI investigation of Sandy Hook, where that, too, appears to have been just one more in an endless stream of lies, deceit and deception surrounding Sandy Hook.]

## Every grain of Sandy Hook: *Snopes.com* & Plausible Deniability

*by Sterling Harwood, J.D., Ph.D.*

*In the time of my confession, in the hour of my deepest need  
When the pool of tears beneath my feet flood every newborn seed  
There's a dying voice within me reaching out somewhere  
Toiling in the danger and in the morals of despair.*

*Don't have the inclination to look back on any mistake  
Like Cain, I now behold this chain of events that I must break  
In the fury of the moment I can see the master's hand  
In every leaf that trembles, in every grain of sand.*

\*\*\*

*I gaze into the doorway of temptation's angry flame  
And every time I pass that way I always hear my name  
Then onward in my journey I come to understand  
That every hair is numbered like every grain of sand.*

\*\*\*

*In the violence of a summer's dream, in the chill of a wintry light  
In the bitter dance of loneliness fading into space  
In the broken mirror of innocence on each forgotten face.*

\*\*\*

*Sometimes I turn, there's someone there, other times it's only me  
I am hanging in the balance of the reality of man  
Like every sparrow falling, like every grain of sand.*

Students at Sandy Hook Elementary School in Newtown, Connecticut, are being guided to get out of the school after the December 14, 2012 deadly shooting.

While liberals and some conservatives believe the time has come to ban assault weapons, the graver threat to our nation's security has been swept under the rug.

The Sandy Hook massacre appears to have been a psy op intended to strike fear in the hearts of Americans by the sheer brutality of the massacre, where the killing of children is a signature of terror ops conducted by agents of Israel.

By Dr. James H. Fetzer

This is being used as powerful incentive for banning assault rifles, where most of the public is unaware of the fact that the Department of Homeland Security has acquired 1.5 billion rounds of .40 caliber, hollow-point ammunition, which is not ever permissible in warfare under the Geneva Conventions.

A Senate Subcommittee has issued a report (3 October 2012) based upon its review of 680 "fusion center" reports (from 2009-2001) and found not a single indication of any domestic terrorist threat-not one! None! Since the only domestic "terrorist threats" are ones contrived by the government, especially the FBI, the public needs to know.

This information-as well as the existence of more than 300 FEMA camps and special boxcars to carry dissidents to them-has been deliberately withheld from the American people, because if they were aware of the facts of the matter, it would become obvious that those camps and ammunition are intended to be used against them.

When DHS is gearing up to conduct a massive civil war against the American people, what better excuse could there be for banning assault weapons than the massacre of 20 innocent children at Sandy Hook Elementary School?

The choice appears to be covertly revealing, where "Sandy" means guardian of men (as an allusion to guns) and "Hook" as a euphemism for hooking, gathering or confiscating the only weapons that DHS fears. And who better to slaughter American children than Israelis, who deliberately murder Palestinian children?

Mike Harris of Veterans Today has exposed the pattern relating what happened there to earlier assaults: "This is exactly what Israel did in Norway; the political party that voted sanctions against Israel was retaliated against by a 'lone gunman' who killed 77 children. This is what Israel always does, they go after the children.

The choice appears to be covertly revealing, where "Sandy" means guardian of men (as an allusion to guns) and "Hook" as a euphemism for hooking, gathering or confiscating the only weapons that DHS fears. PressTV - Mossad death squads slaughtered American children at Sandy Hook

*"It is what they do in Gaza every day. It is what was done in Norway. It is what happened at Sandy Hook. Nobody buys the 'one gunman' story anymore, not with the Gabby Giffords' shooting, not with the Aurora "Batman" shooting, certainly not with Breveik, and certainly not in Connecticut."*

The most likely scenario, given what we know now, is that Adam Lanza and his mother killed the day before. Adam's body picked up by local police. He was attired in a SWAT outfit, including body armor, and stored in the school.

A three-man team entered the school, one was arrested in the school--cuffed and put on the lawn--two went out the back door, one was arrested, the third appears to have escaped. You can find this on helicopter videos.

Those arrested are currently not in police custody; their names were never released. That is a telling sign that we are being sold a story that is based on fiction, not on fact. What else are the local police concealing?

A parallel situation in Aurora, where there appear to have been multiple participants, but the police concealed information about them. The DC Sniper, John Allen Muhammad, was even a active member of Delta Force, but the public was not informed.

His assistant in this killing spree, Lee Boyd Malvo, had been detained in Seattle but was released, even though he was an illegal alien, where INS has refused to explain how that happened. Did "higher authority" intervene?

Nidal Malik Hasan, the US Army Major who killed 13 and wounded 29 during a rampage at Ft. Hood, Texas, even sat next to the Director of Homeland Security during an event at George Washington University. Can that be coincidental?

When the "long gunman" cover story falls apart, then the national press, which William Colby told us was infiltrated by agents of the CIA--"The agency owns everyone of significance in the major media"--resorts to stories of Mind Control and use of drugs.

We have to see through the smoke and mirrors. These attacks typically involve three-man shooting teams, where, once the story is tainted with bogus MK/Ultra conspiracy disinformation, crucial data, like the assault rifle the Sandy Hook having been left in his car, swiftly disappears.

Lenin and Trotsky were terrorists. Lenin was an outspoken proponent of terrorism. The founder of the Lukid Party and sixth Prime Minister of Israel was an Irgun terrorist. Study its history. No nation in the world cares more about its own interests and less about those of the United State than Israel.

*The bombing of the King David Hotel in Jerusalem on 22 July 1946, was a stunning example. The attack on the USS Liberty and Israel's bombing of its own Embassy and Jewish Community Center in Buenos Aires in 1992 and 1994 are other illustration.*

Those who study 9/11 are all too aware of the role of the Neo-Cons and the Mossad. But the American press covers it up--and Congress is controlled by AIPAC. As Bill Casey, former CIA Director, observed, "Our disinformation program will be complete when everything the American public believes is false." Sandy Hook is the latest example.

STATE OF WISCONSIN

CIRCUIT COURT

DANE COUNTY

---

LEONARD POZNER,

CASE TYPE: DEFAMATION

PLAINTIFF

VS.

NO. 2018-CV-003122

JAMES FETZER,  
MIKE PALECEK, AND  
WRONGS WITHOUT WREMEDIES, LLC,

DEFENDANTS

---

**DEFENDANT FETZER'S ANSWERS TO PLAINTIFF'S PLAINTIFFS FIRST SET OF  
REQUESTS FOR ADMISSION**

---

Defendant Fetzer (hereinafter "Defendant"), representing myself pro se, respond to Plaintiff's First Set of Requests for Admission as follows:

**Request No. 1:** Admit that Leonard Pozner is the father of Noah Samuel Pozner.

**Defendant's Answer:** Denied.

**Request No. 2:** Admit that Veronique Patricia Haller is the mother of Noah Samuel Pozner.

**Defendant's Answer:** Denied.

**Request No. 3:** Admit that your contention that Noah Pozner is a fiction made up of pictures of Michael Vabner is based on the similarity in appearance between Noah Pozner and Michael Vabner.

**Defendant's Answer:** As a point of logic, two things are one and the same when they have all and only the same properties. For physical things, that means the same properties at the same locations and time. The person called "Noah Pozner" and the person called "Michael Vabner" have the same

eyes, eyebrows, mouths, noses, ears and shapes of skull. Since those are properties that are the same across time, they appear to be one and the same person.

**Request No. 4:** Admit that Veronique Patricia Haller is the mother of Michael Vabner.

**Defendant's Answer:** Unknown.

**Request No. 5:** Admit that Leonard Pozner is not the father of Michael Vabner.

**Defendant's Answer:** Denied.

**Request No. 6:** Admit that Noah Samuel Pozner was born on November 20, 2006.

**Defendant's Answer:** Unknown.

**Request No. 7:** Admit that Noah Samuel Pozner died on December 14, 2012.

**Defendant's Answer:** Denied.

**Request No. 8:** Admit that Noah Samuel Pozner died in the town of Sandy Hook, CT.

**Defendant's Answer:** Denied.

**Request No. 9:** Admit that a medical examination was performed by then-Chief Medical Examiner H. Wayne Carver, II, M.D.

**Defendant's Answer:** Purportedly.

**Request No. 10:** Admit that a medical examination report was duly issued by then-Chief Medical Examiner H. Wayne Carver, II, M.D.

**Defendant's Answer:** Purportedly.

**Request No. 11:** Admit that a Certificate of Death for Noah Samuel Pozner was duly issued by the State of Connecticut.

**Defendant's Answer:** Apparently, but its authenticity remains in doubt. Defendant has declared that, if the death certificate Plaintiff gave to Kelley Watt and the death certificate attached to his

Complaint do not differ “in any material respect”, as Plaintiff contends, then Connecticut has certified a fabricated death certificate, which is itself a crime.

**Request No. 12:** Admit that Exhibit A is a Death Certificate for Noah Samuel Pozner certified as a true copy of a record of the State of Connecticut.

**Defendant’s Answer:** Apparently.

**Request No. 13:** Admit that Box 37 of Exhibit A states that Noah Samuel Pozner was pronounced dead on December 14, 2012.

**Defendant’s Answer:** Since nobody died at Sandy Hook on 14 December 2012, denied.

**Request No. 14:** Admit that Noah Pozner is a different person than Michael Vabner.

**Defendant’s Answer:** Denied. The proof leaves the matter beyond reasonable doubt.

**Request No. 15:** Admit that you once believed that children were killed at Sandy Hook Elementary.

**Defendant’s Answer:** In my first article on Sandy Hook for Veterans Today (VT), the Editor-in-Chief (sometimes “Senior Editor”), Gordon Duff, asked me to write a piece suggesting that the Sandy Hook event may have been a Mossad hit. He explained that there were Mossad agents dressed as nuns, that they had tracked a white van back to Greenwich Village to a Mossad safe-house stocked with Nazi paraphernalia, and that this would draw out responses from “the other side” and that it was called “churning” (as I recall). While I followed his lead and wrote such an article for VT, I soon became better informed and realized that it had been something else entirely, where it appeared that no one had died and that it had been a FEMA exercise to promote gun control. By the time I edited *Nobody Died at Sandy Hook* (2015), I had already published 30 articles about SHES, only the first of which was based upon the false belief (given to me as a premise by Duff); but of course the propagandists do not acknowledge that I abandoned that

position long since, where we have proved that the school was closed, there were no students there and nobody died.

**Request No. 16:** Admit that You once published an article stating that the Mossad killed 20 innocent children at Sandy Hook Elementary.

**Defendant's Answer:** See Answer to Request No. 15 above.

**Request No. 17:** Admit that by November of 2015, you were aware of C.W. Wade's criticism of your claim that Sandy Hook victims' death certificates were fake.

**Defendant's Answer:** While I like to know what the other side may be contending, C.W. Wade is not a credible source and the proof of fabrication of Noah Pozner's death certificate, in particular, is conclusive. As observed in the law, *Falus in uno, falsus in omnibus*. Fraud vitiates everything.

**Request No. 18:** Admit that you did not order a copy of Noah Pozner's death certificate even after C.W. Wade criticized your claim that Sandy Hook victims' death certificates were fake.

**Defendant's Answer:** Admitted.

**Request No. 19:** Admit that You alleged that Leonard Pozner photoshopped the bottom part of a legitimate death certificate to the fake part of the top of the death certificate of Noah Pozner.

**Defendant's Answer:** Admitted.

**Request No. 20:** Admit that the certified death certificate attached as Ex. A hereto includes the wrong time of death.

**Defendant's Answer:** Admitted.

**Request No. 21:** Admit that the certified death certificate attached as Ex. A hereto includes a handwritten file number.

**Defendant's Answer:** Admitted.

**Request No. 22:** Admit that Alex Jones disagrees with your contention that Noah Pozner did not die at Sandy Hook. Alex Jones's position is therefore both consistent with and inconsistent with any other position, including that of Defendant.

**Defendant's Answer:** Alex Jones has affirmed and denied both that it was real, and it was fake.

**Request No. 23:** Admit that Alex Jones told you that he disagrees with your contention that Noah Pozner did not die at Sandy Hook.

**Defendant's Answer:** Defendant has no recollection of any communication with Alex Jones about Sandy Hook. Defendant has sent Alex Jones links to the book, *Nobody Died at Sandy Hook* (2015) and entered the case against him in Texas with an *amicus curiae* brief, including five exhibits. But to the best of Defendant's knowledge and belief, Alex Jones has never relied to them.

**Request No. 24:** Admit that Alex Jones disagrees with your contention that Noah Pozner is not a real person. Alex Jones's position is therefore both consistent with and inconsistent with any other position, including that of Defendant.

**Defendant's Answer:** Alex Jones has been all over the place on SHES and is not credible.

**Request No. 25:** Admit that Alex Jones told You that he disagrees with your contention that Noah Pozner is not a real person.

**Defendant's Answer:** See Answer to Request No. 23 above.

**Request No. 26:** Admit that in 2013 you published an article by Nick Kollerstrom that argued that parents of the alleged Sandy Hook victims are crisis actors.

**Defendant's Answer:** If you define "crisis actors" to include fake parents pretending to have lost children in a staged event, which was in fact a FEMA exercise where nobody died, then admitted.

**Request No. 27:** Admit that before April of 2014, you had publicly stated that no children were killed at Sandy Hook.

**Defendant's Answer:** Probably. That would not surprise me. Proof was growing by leaps and bounds.

**Request No. 28:** Admit that before April of 2014, you publicly stated that Noah Pozner was a fictional person created out of images of Michael Vabner.

**Defendant's Answer:** Probably. Defendant most certainly has made that assertion hundreds of times.

**Request No. 29:** Admit that your allegation that Leonard Pozner fabricated Noah Pozner's death certificate was intended to impact readers' perception of Mr. Pozner's trustworthiness.

**Defendant's Answer:** Denied. As a philosopher, Defendant cares about truth. As a philosopher of science, Defendant knows the best way to ascertain the truth is by scientific reasoning. And, as a former Marine Corps officer, Defendant cares about the future of the nation. Defendant has never been affected in the pursuit of Sandy Hook Truth for its ramifications and effects on the "crisis actor" parents, who have made out like bandits and profited financially and in other ways—such as public adulation, television interviews and the like—for pretending to have lost children at Sandy Hook. Their conduct has been completely disgraceful.

**Request No. 30:** Admit that you coordinated publication of the Book with Defendant Palecek.

**Defendant's Answer:** Defendant Palecek was the Series Editor of which I was the Book Editor. He suggested the title and wrote the Preface. I am responsible for the book's contents and format.

**Request No. 31:** Admit that you coordinated publication of the Book with Defendant Wrongs Without Wremedies, LLC.

**Defendant's Answer:** The first edition of *Nobody Died at Sandy Hook* (2015), was produced using CreateSpace, a subsidiary of amazon.com. It went on sale on 22 October 2015 and was banned by amazon.com on 19 November 2015 after selling nearly 500 copies. Defendant Palecek

and Defendant Fetzer realized that they needed an independent entity to produce and distribute their books on controversial subjects and entered into an informal, merely verbal agreement with Wrongs Without Wremedies, LLC to publish their work under the imprint, Moon Rock Books (moonrockbooks.com), where Defendants now have a dozen titles and are the premier conspiracy catalogue for U.S. citizens and, indeed, residents of the world-wide community who want to know what really happened and the frauds that have been perpetrated upon the American public through theft by deception and upon the judicial system by abuses of process and conducting frauds upon the Courts. It's a travesty.
